Interior Surface Railing Glass

What do we do if we aren't happy with the service? (7 Day Review Period)

1. If your windows were not closed or have screen on it at the time of the cleaning, your windows would not have been cleaned and unfortunately, we will not be able to return.
2. Make sure the window(s) that you are concerned with was included.
3. Try cleaning the inside of the window. With more light from the outside, dirt from the inside window can be more visible.
4. Still not happy, it happens, that's okay email us at info@smpropertyservices.ca with your unit #, the window you are concerned with and include a photo of that window from the outside.
